

## YOU CAN LIVE THE FANTASY TOO!

Rebecca, TX

I started my Slumber Parties business to pay for my wedding, but got SO much more! Within a pretty short period of time, working parties just once to twice a week, I was making way more than I was teaching high school! I was able to quit that teaching job, become the stay-at-home mom I always wanted to be, and make more money than I had ever dreamed! We've been able to pay off debt, purchase and fix up our first home, pay cash for Christmas, travel on dream vacations, drive new cars... the list goes on, all thanks to Slumber Parties!

When I started with Slumber Parties, all I wanted was an extra \$1,000 a month in income to allow my family some breathing room. We were tired of having more month than money! Now, I make six figures working just 2-3 times a week. I don't have to worry about how to pay for soccer, girl scout camp or our next family vacation - fresh cash is just a party away! And while the money is amazing, the friendships I have made are even more valuable. Working and playing with other successful, like-minded women is a priceless reward I love just as much. I get to be home with my kids after school and never have to beg for a day off - I'm the best boss I've ever had!

People who meet me immediately see the passion I have for Slumber Parties and often ask me to share my favorite part of being a Slumber Parties Consultant. I honestly can't pick just one thing. The flexibility of my Slumber Parties business allows me to work when I want to work and play when I want to play. I love being my own boss! I have made lifelong friends, earned incredible perks, and traveled on countless free vacations. Through doing parties, I have learned the value of "girl time," something which was lacking in my life. I have also developed better self-esteem and confidence in myself not only as a person but also as a business woman. All of these rewards, both tangible and intangible, have been endless and have truly changed my life for the better.

I had a premature baby in 2002 and encountered staggering medical bills in the process. I wanted to stay home with her, but like so many other mothers was forced back into the workforce. I was invited to a Slumber Party and was impressed with the tasteful demo and educational topics presented. Being that I had taught Sexuality classes at the college level, a light bulb went off in my head. Why not join the Slumber Parties fun, use my background, and have extra time to stay home with my two children? Thus, my business was born and I've been able to watch my children grow up, be around for school field trips and volunteer at their school. I now get to be the mom I always dreamed I could be while still being an educator, empowering women and making great money.

As a single parent I wanted to offer my only son the world; the very best private school, lifestyle and international travel experiences. Slumber Parties helped with the magic of parenting for 8 years by allowing us to travel to Italy, Greece, Turkey and France! We swam with the sharks in Atlantis, Paradise island and jet set to Jamaica. After graduating from a college prep school he entered Purdue University this year with a wealth of childhood experiences thanks to Slumber Parties.
